wall browser - wood

The **WOODEN WALL BROWSER** is an extremely elegant unit. Made from **hard wood**, the browser has a choice of **3 different sized display panels** (Also made of hardwood). It is a very narrow unit consisting of only **5 panels** (That can display on both sides), because of this it is able to be installed in the smallest of places, so ideal for people without the wall space for a huge wall mounted display browser. If you wanted more panels, simply **install 2 units side-by-side**, and people could never tell the difference!
